

# Epoxy Floor Care Sheet

This care sheet will help you maintain the beauty, shine, and longevity of your Epoxy Tech floor system.

## Daily Care:

- **Prompt Spill Cleanup:** Quickly address spills to prevent stains and damage. Prolonged exposure to chemicals can degrade the epoxy.
- **Sweep Away Debris:** Regularly sweep or dust mop to remove dirt and debris that can cause scratches.

## Regular Cleaning:

- **Gentle Cleaning Tools:** Use soft-bristle brushes or mops to avoid scratching the epoxy surface.
- **Mild Detergent:** If needed, use warm water and a mild detergent. Rinse thoroughly to remove any residue.
- **Mopping Technique:** Use a soft mop or microfiber cloth with a mild detergent and water. Avoid excessive soap or harsh cleaning solutions.

## Preventative Measures:

- **Protective Pads:** Place protective pads under heavy furniture to prevent scratches and indentations.
- **Mats and Rugs:** Use mats or rugs with rubber backing in high-traffic areas and entryways to provide grip, capture dirt and debris, and minimize wear and tear.
- **Moving Heavy Objects:** When moving heavy objects with wheels, use plywood or other protective materials to distribute weight and prevent damage.
- **Avoid Sharp Objects:** Be cautious with sharp objects to prevent damage to the epoxy surface. If accidents happen, call us promptly to schedule a repair.

**Additional Questions?** Please do not hesitate to reach out to us with any questions about your new floor and how to properly care for it. We can be reached at 631-345-5000, or you can send us an email at [epoxytech123@gmail.com](mailto:epoxytech123@gmail.com)

**Remember:** Following these care instructions will help ensure a long-lasting and beautiful Epoxy Tech floor system that you can enjoy for years to come.
